Thank you to Mayor Mike Fahey for his support, the City of Omaha's Planning Department for the information and guidance, and the University of Nebraska at Omaha's Dr. Russ Smith and Heather Bloom for their initiative to see this project through to the end.

Omaha Neighborhood Scan is a cooperative service of the School of Public Administration, University of Nebraska at Omaha and the Mayor's Office, City of Omaha. Funding provided by the U.S. Department of Housing and Urban Development. Grant # B-03-SP-NE-0452.

The Neighborhood Center for Greater Omaha (NCGO) is a non-profit organization established in 2001 to provide information and assistance to neighborhood associations to enable them to come together and develop their own leadership and decision-making structure and effectively address the issues affecting the quality of life in their communities. NCGO works directly with residents in the tri-county area, including those who are members of neighborhood associations, homeowners associations, business associations, coalitions, community development corporations, churches, and other not-for-profit groups.
